

L'Institut Maharishi Genève présente :

Le champ unifié de toutes les lois de la nature : la clé du plein potentiel humain et de la paix dans le monde

Cycle de trois conférences vidéo récentes du Dr John Hagelin (**en anglais**)

*"By applying proven technologies of the Unified Field to all areas of society,
we can eradicate violence, disease, and poverty »*

- Dr John Hagelin

THE UNIFIED FIELD AS THE KEY TO ENLIGHTENMENT, NATIONAL INVINCIBILITY AND WORLD PEACE

A unique new 12-part videotaped conference series, entitled "The Unified Field: The Key to Enlightenment, National Invincibility, and World Peace" and featuring world-renowned quantum physicist Dr. John Hagelin, is now being presented in cities around the world.

The Unified Field, according to modern physics, is the deepest, most powerful level of Nature's functioning—and the source of the infinite creativity and intelligence within every individual and displayed throughout the universe.

Dr. Hagelin, who conducted pioneering research at the European Center for Particle Physics and the Stanford Linear Accelerator Center, will present the scientific discovery of the Unified Field and its practical applications in every area of society to eradicate such intractable problems as violence, disease, and poverty. Dr. Hagelin also reveals how these same technologies of the Unified Field, which include the Transcendental Meditation program of Maharishi Mahesh Yogi, can raise every individual to enlightenment and every nation to invincibility.

Dr. Hagelin's conference themes include Unified Field-based approaches to Education, Health, Architecture, Agriculture, Trade and Commerce, Defense, Science and Technology, Communication, Religion and Culture, Administration, Law and Order, and Finance and Planning.

Dr. Hagelin currently serves as Executive Director of the International Center for Invincible Defense in New York City; International Director of the Global Union of Scientists for Peace; President of Maharishi Central University in Kansas; Minister of Science and Technology of the Global Country of World Peace; and Raja of Invincible America.
